WE DEMAND CLIMATE JUSTICE
WE CANNOT BE RESILIENT IF WE DON'T HAVE RESILIENT PEOPLE

Lack of engineering expertise

Virtual meetings less carbon footprint from travel

Resources redirected to support livelihoods

Focus on local and nutritious foods

Food security is an important recovery

COVID-19 pandemic

SUSTAIN

Low carbon development

NDCs need to be led and supported

Transport accounts for 80% of petrol use

High usage and cost of fossil fuels

Increased production of home crops

Sustainable investment

Participatory community planning

Risks need to be managed

Exacerbates pre-existing vulnerabilities

Health, disasters, economic

High cost of investment in renewables

Land is scarce

Pics must be fully informed and prepared before a nation-wide uptake of EVs

Stop working in silos, work in communities

Use what is around you to prepare

Rethink legislation
